BACKGROUND

PROJECT:
- The aim of the project is to create an online catalogue of all the objects in Hebrew scripts from the collection of the John Rylands Library.
- The project is funded by an anonymous Jewish European Foundation between 1 April 2015 and 1 March 2018 (£120,000)

STAFF:
- Dr Renate Smithuis (Principal Investigator)
- Dr Stefania Silvestri (Research Associate)

CURATORIUM MEMBERS:
- Elizabeth Gow (Manuscript Curator)
- Heritage Imaging Team
- Collection Care Team
- Staff and Members from the JRRI & JRUL
- Professor Philip Alexander (Advisor)

GROUNDWORK:
- Draft catalogue by Professor Alexander Samely (1990s)

CHALLENGES

- Complexity of collection
- Learning TEI-XML
- Using TEI-XML for non-codex or non-fragment objects
- Obtaining additional funding for conservation and digitisation

MILESTONES

- Conservation project on ketubbot
- 12,000 images (¼ of the collection)
- TEI-XML files testing on platform

COLLECTION

- 175 original codices
- 20 photographic reproductions
- 40 albums with fragments
- 48 scrolls
- 31 ketubbot
- 100 amulets
- 123 copies

WORKFLOW

DIGITISATION
Cataloguing purpose
