

#### Workshop Title:

Japanese Text and Japanese Language Education Workshop, the Graduate School of Humanities, Kobe University

#### Abstract:

Kobe University Graduate School of Humanities is collaborating with Hamburg University, through a project funded by JSPS. We are conducting joint research into creating standards for introducing literary works into language education from the standpoint of understand different cultures, and also actively sending young researchers on internship programs for education related to Japanese language and culture. As part of this initiative we will hold a search meeting on education for Japanese as a foreign language and Japanese culture.
